That's all you need to know to start playing! I'll give you more advice as you play, and you can always check the PokéHelper for more key words. Also, don't forget to read the Instruction Booklet - it's full of tips and information!

Follow these quick, easy steps to get started.

1. Slide your Game Pak into your N64® Control Deck.
2. Connect your Controller to Socket 1 on the far left.
3. Connect the VRU to Socket 4 on the far right.
4. Turn the N64 Deck ON.
5. Choose New Game, select a file, then press A.

Now you're ready to get started! I've sent you a prototype PokéHelper that lets you talk to Pokémon. I'd like to see how well you can use it, so head to the Viridian Forest Edge. That's where you'll meet Pokachul!
